

Archos 704 WiFi Head Rest & Shoulder Strap Instructions

Shoulder Strap Installation:

Take the NewMP3Technology 704 WiFi case with the flap open and install the strap onto the open end of the case (where the player actually goes into). To install the strap make sure the strap has been straightened out. Place the strap in one side of the player inserting the end through the "inside" of the port access on either side of the case. Loop the strap through the first accessory port. The all suede leather side of the strap should now be located on the outside with the velcro strips on the inside of the strap. Follow the same procedure for the opposite side. Now adjust the straps for the proper fit by pulling more of the strap through the case, and once you find a comfortable fit fasten down the strap to the velcro. Now place your player in the case and you are all set.

See the strap attached to the case in the picture below.

NOTE: DO NOT ATTEMPT TO INSTALL THE STRAP WITH THE PLAYER IN THE CASE. ONLY INSTALL YOUR PLAYER ONCE THE STRAP IS SECURELY IN PLACE.

Head Rest installation:

To install your NewMP3Technology 704 WiFi case to your head rest straighten out the strap and place it through the bottom of the case. The strap should go through the case with the suede leather side on top. See figure (a.)

Figure (a.)

Align the case on the head rest for your viewing satisfaction. Begin with the right end and take the strap under the bottom of the headrest and back over the top as shown in figure (b.)

Figure (b.)

Continue with the strap looping it through the top right accessory port of the case and pulling the end through as shown in figure (c.)

Figure (c.)

Finally take the strap end back around the top of the head rest and fasten down the velcro as featured in figure (d.)

Figure (d.)

Complete the same steps for the left side and your player will be securely attached as shown in figure (e.)

Figure (e.)

Note: Our Head Rest & shoulder strap is very versatile, and you will find that there are many configurations that will work with your situation, so feel free to be creative.
